

IN THE CLAIMS

Please amend the claims as follows:

1.-18. (Cancel)

19. (Previously Amended) A backing sheet for insulation, said backing sheet comprising:

a front side having an adherent material thereon;

a back side;

a stapling tab extending along an edge of said backing sheet, said stapling tab having a first portion of said back side positioned against a second portion of said back side; and

at least one hole extending through said backing sheet such that a portion of said adherent material extends through said at least one hole and contacts said back side.

20. (Previously Amended) The backing sheet according to Claim 19, wherein said stapling tab comprises:

a first fold extending along an edge of said backing sheet, said first fold having a first portion of said front side positioned against a second portion of said front side; and

a second fold extending along the edge of said backing sheet contiguous with said first fold, said second fold having said first portion of said back side positioned against said second portion of said back side.

21-31. (Cancel)

32. (Previously Added) The backing sheet according to Claim 19, wherein said stapling tab comprises:

a first fold extending along an edge of said backing sheet, said first fold having a first
